

Table from "Title Text File" – the list of presentation numbers and titles
 tablename: presentation

id	date_encoded	day	morning_or_night	presentation_date	title
3192	SM010514	Sunday	morning	2014-01-05	Predestination: Increase ...
3913	SN010514	Sunday	night	2014-01-05	Doctrine of the Devil: ...

Table from directory of files 'Bible Display App CSV txt files' after split days with two sessions into two files.
 tablename: file_for_timestamp_entries_book_chapter_verse

id	filename	file_date	morning_or_night
330	BDA 2014 1 05_morning.txt	2014-01-05	morning
331	BDA 2014 1 05_night.txt	2014-01-05	night

Table from content of files in directory of files 'Bible Display App CSV txt files' after (a) split days with two sessions into two files and (b) convert to csv.
 tablename: timestamped_entry_book_chapter_verse

filename	filename_date	morning_or_night	entry_timestamp	book	chapter	verse
BDA 2014 1 05_morning	2014-01-05	morning	2014-01-05 00:01:49	Romans	8	29
BDA 2014 1 05_night	2014-01-05	night	2014-01-05 00:04:45	1Timothy	4	1

```
SELECT presentation.id, entry.entry_timestamp, entry.book, entry.chapter, entry.verse,
FROM timestamped_entry_book_chapter_verse as entry JOIN presentation ON entry.filename_date = presentation.presentation_date
WHERE entry.morning_or_night = presentation.morning_or_night AND
presentation.id = 3192
ORDER BY entry.entry_timestamp;
```

This query gives way to get all timestamped entries for a given presentation id
